Introductions

Guest Speaker:

Matt Enyart, Kansas Institute on Positive Behavior Supports. Matt gave an overview of his work in Positive Behavior Supports, including development of standards for DSP's and being a part of the Challenging Behavior Workgroup. He has had success working with providers in Johnson County implementing PBS within organizations. There have been many benefits, including a drop in worker's compensation and turnover, which in turn benefits the individuals served as well as the staff. Matt is now writing a grant to continue his work in Shawnee County. Matt opened the discussion up for feedback from affiliates and challenges mentioned were the difficulty of collecting data for behavior tracking, staff retention and training, and the complexity of medical care for individuals served. If we move forward we would send out a survey asking for input from all affiliates as this should be a "collaborative construction". Matt is proposing what would probably be a 3 year plan, with additional planning for future sustainability.

Reminders/Items:

- Last meeting, we had a question about an MCO asking TCM's to use an incorrect billing code. We received a response that "the TCM should bill 99 (other) or 12 (home) instead of 11."
- Please use the correct PCSP Template. Providers are responsible for making sure the TCM's are using the correct format. The template may not be altered. If the TCM is using an incorrect format the TCM's Director should be made aware as well as the CDDO and Larry Castro.

- We are recruiting for the Council of Community Members. Send nomination forms to Coleen Hernandez.
- For individuals who are 18-21, in school, and receiving adult day or residential services, the IEP must reflect that they are receiving services. The CDDO needs to be invited to the IEP meeting. Contact Tiffanie Krentz and Coleen Hernandez. It was asked whether the schools are aware of this. Tiffanie responded that she has been working with the schools in 501, Seaman, and Shawnee Heights and going in to do education with the staff and has been including information about the IEP piece.

Training Opportunities/Resources:

- March 26, 8:30 – 12:30 CDDO Training Session One (CDDO Overview, Article 63, BASIS Assessments, Status Action Forms)
- April 28, 1:00 – 4:00 CDDO Training Session Two (BCI, Transition Checklist)

Next Affiliate Meeting:

April 2, 2020
